

CS101 FINAL TERM MEGA MCQES FILE MODULES 82 TO 234

500+ MCQ's For Final Preparation

HARRY AMAZON UAE MENTOR

VU ROAD TO FINALS +923027162081

CS101 FINAL Term Preparation Modules 82 to 234

Mcqes Solved BY HARRY

1-What is the purpose of the given pseudo-code? f=1

i=1; while(1<=n):

f=f*I; i=i+1;

- ❖ To determine the minimum value in a list
- ❖ **To calculate the factorial of a given number**
- ❖ To identify prime numbers
- ❖ To sort the number list

2- Always write a pseudo-code in _____ manners.

- ❖ Independent
- ❖ Dependent
- ❖ **Unambiguous**
- ❖ Ambiguous

3- what is the formal definition of an algorithm?

- ❖ **An ordered set of unambiguous steps**
- ❖ A sequence of parallel executable steps
- ❖ A random set of steps ❖ An ordered set of ambiguous steps

4- Computer Fraud and Abuse act passed in?

- ❖ 1980
- ❖ 1990
- ❖ 1988
- ❖ **1984**

5- Which one is a Unary Operator?

- ❖ **Not**
- ❖ OR
- ❖ Equal And

6- What does it mean for an Algorithm to be “unambiguous” according to the formal definition of computer Algorithms?

- ❖ It can be executed by any computer
- ❖ The steps have multiple Interpretations
- ❖ **The steps are clear and have a unique interpretation**
- ❖ It involves parallel processing

7- Which Keyword is used in Python convention to announce the title of a pseudo-code unit representing a program unit?

- ❖ Subprogram
- ❖ **Def**
- ❖ Module
- ❖ Unit

8- what is the role of getting your foot in the door in the problem solving process?

- ❖ It guarantees a correct solution
- ❖ It opens the way to extending knowledge
- ❖ **It prevents direct confrontation**
- ❖ It provides a philosophical perspective

9- What technique is used by spam filters to distinguish between describe email and spam?

- ❖ Firewalling
- ❖ **Learning through a training process**
- ❖ Spoofing
- ❖ Proxying

10- What does the prevention of electronic Crime ordinance 2007, in Pakistan aim to address?

(A) Presentation of electronic crimes

(B) Cybersecurity education

(C) International Cooperation

(D) Wiretapping Regulation

11- Which mathematician presented loosely defined problem-solving phase in 1945?

- ❖ G. Paimer

- ❖ ❖ G. Pascal
- ❖ G. Pollock
- ❖ **G. Polya**

12. What are tree activities involves in the control of a loop structure?

- ❖ Start stop and proceed
- ❖ ❖ **Initialize, Test Modify**
- ❖ Begin, End continue
- ❖ Launch Halt Adjust

13. Let a unsorted list Fred, Alex, Diana, Byron, Carol so which one will be sorted at the last?

- ❖ Diana
- ❖ Alex
- ❖ **Fred**
- ❖ Carol

14- The imperative paragraph also known as the particular machine_____

(A)Procedural paradigms

- (B)Non-traditional paradigms
- (C)Non-procedural paradigms
- (D) Traditional Paradigms

15- What is the primary goal of the Sequential search algorithms?

- ❖ Randomizing list elements
- ❖ Detecting Duplicate entries
- ❖ **Searching for a special target value**
- ❖ Sorting a list

16- How many times will the loop in the example below execute?

Int counter=1:

While (counter<=5)

{

Count<<counter;

Counter=counter+2;

}

(A)3 times

(B)5 times

(C)6 times

(D)4 times

17- **Float CGPA=3.5; if(CGPA>3.0) count<<'Give Scholarship'; Else count<<'Sorry You do not qualify for the Scholarship:'**, it will show

(A)Sorry You do not qualify for the Scholarship

(B)Give Scholarship

(C)Display none

18- **If(TargetValue==TestEntry);**

In the above condition, what is "=="?

(A)Assignment Operator

(B)Expression

(C)Equal to Operator

(D)Conditional loop

19. **Why is the initialization step important in loop control?**

(A)It ensures the termination of the looping process

(B)It compares the current state to the termination condition

(C) It establishes a starting condition will be modified toward the termination condition

(D) it execute the loo body

20- **What is the purpose of the provided pseudocode?**

Def Find Max():

Max=first number in the list

Current= second number in the list

While(elements in the list exist) If(max<current)

Current= Next Value in the List

- ❖ Finding the average of a list
- ❖ Counting the Number of elements in a list
- ❖ **Find the maximum number in the list**
- ❖ Sorting a list in ascending order

21. What explains the role of the "Take a Sip of tea" in the context of algorithm for making a cup of tea and its impact on the overall process?

(A) It is irrelevant to the tea making algorithm

(B) It concludes the algorithm

(C) It adds complexity to the algorithm

(D) It fetches a new cup

22- Third Generation language attributes refer to _____

(A) Particular machine

(B) None of these

(C) For all machine

(D) For only required machine

23- In the provided pseudo code what is the role of the "Current" variable?

Def Find Max():

Max = first number in the list

Current = second number in the list

While (elements in the list exist)

If (max < current)

Current = Next Value in the List

(A) It indicates the position of the current element in the list

(B) It stores the current value being compared

(C) It holds the maximum value in the list

(D) It represents the minimum value of the list

22- What is the main characteristic of public key encryption system?

(A) The use of any random key for encryption and the same key decryption system

(B) The Use of a Single Key for encryption and decryption

(C) The use of two keys for encryption and decryption

(D) Knowledge of encryption allow decryption

23- What is the Purpose of an Assignment statement in the program?

(A) To declare the variables

(B) To assign a value to a variable

(C) To request input from the user

(D) To terminate the program

23- The Binary Search Algorithm uses _____

(A) Quick sort Technique

(B) Divide and Conquer method

(C) Linear search

(D) Bubble sort Technique

24- What does the variable "f" represent in pseudo code?

`f=1 i=1; while(i<=n):`

`f=f*i; i=i+1;`

The initial value of loop

(A) The condition for loop termination

(B) The loop counter

(C) **The factorial of the number**

27-A _____ alters the execution sequence of the program

❖ Assignment statement

❖ **control statement**

❖ Division

❖ Modulus

28- What is a digital signature in the context- key encryption?

❖ A mention to decrypted with private key

❖ **An authentic mark on the message produced with the private key**

❖ A certificate provided by a trusted authority

❖ An encrypted message with public key

29. In the Java programming language what is the equivalent term for an "activation" in the context of concurrent processing?

(A) Thread

(B) Operation

(C) Task

(D) Function

30- In the declarative paradigm, what does a programmer focus on when presented with a problem?

(A) Developing a precise statement of the problem

(B) Finding a general purpose algorithm

(C) Describing detailed algorithm

(D) Developing a sequence of command

31. _____ - is a package containing a party name and public key?

(A) Contract

(B) Certificate

(C) Antivirus

(D) Security

32. What would be the next statement?

Def Find Max():

Max=first number in the list

Current= second number in the list While (elements in the list exist)

- ❖ Current=next value in the list
- ❖ Max= Current
- ❖ **If(max<current)**
- ❖ Max= Value

33. in the context of the provided pseudocode. What is the purpose of the statement "Count=3" Def

Greeting ():

Count=3 while(count>0):

Print('Hello') count=count-1

- ❖ To define a loop condition
- ❖ To request a service
- ❖ To print a message
- ❖ **To initiate a counter**

34- What does the modification step in loop control accomplish?

- ❖ Compares the current state to the termination condition
- ❖ Establishes a starting condition
- ❖ Terminates the loop
- ❖ **Moves the condition towards the termination condition**

35 True parallel processing required _____ CPU cores?

Single

None of these

(A) Multiple

(B) Single

(C) None of these

(D) Exact two cores

36-Which organization have adopted and published standard for popular programming language to address the lack of agreement on language definition?

(A) Compiler Writers Association

(B) American National Standard institute(ANSI) and international Organization for standard

(ISO)

(C) Programming language

(D) International Compiler Consortium

Solved By Harry Amazon UAE Mentor

37- There are ____ iteration in following pseudo code
def Findfactorial(): fact=2 i=1;

While(i<=7) fact=fact*
i=i+1;

5

❖ 2

❖ 7

❖ 3

38- What might be true about the value of finding a related problem Solving?

(A)It helps develop general algorithms

(B)It adds complexity to the current problems

(C)It is irrelevant to the problem solving approach

(D)It complicates the solution process

39. What kind of server works as an intermediate between the client and server?

❖ Client server

❖ Proxy server

❖ Super server

❖ Server computer

40. What condition triggers the termination of the sequential search algorithm as a failure on the ordered lists of names?

❖ List is empty

❖ Equality of TargetValue and TestEntry

❖ TestEntry is smaller than TargetValue

❖ Reaching a name greater than target name

41. Which of the following terms refers to the process in which a small request is initially made and detail solution is shared later?

(A)Low balling

(B)High balling

(C)Foot in the door technique

(D)Door in the face technique

42. - Float CGPA=2.5;

if(CGPA>3.0) count<<'Give Scholarship';

*Else count<<'Sorry You do not qualify for the Scholarship:',
it will show*

❖ **Sorry You do not qualify for the Scholarship**

❖ Give Scholarship

❖ Display none

❖ Good

43. In the context of a loop structure which part is called the body of loop?

❖ The initial condition

The termination condition

❖ **The collection of instruction executed repetitively**

❖ The control process

44. In the Algorithm representation what does the term 'syntax' refer to in the context of primitives?

❖ The complexity of the algorithm

❖ **The symbolic representation of primitives**

❖ The level of Detail in Algorithm representation ❖ The meaning of the primitive

45. For controlling vandalism over network connections a primary prevention technique to filter out the traffic passing through a point is

❖ Proxy server

❖ **Firewall**

❖ Antivirus Software

❖ Auditing Software

46. What is step wise refreshment in algorithm discovery?

❖ Conquering on entire task at once

❖ Ignoring sub problems

❖ **Breaking a problem in to sub problems**

- ❖ Solving the entire original problem immediately

47. Which of the semantic structure is used in algorithms for making decisions based on condition?

- ❖ **Loop Structure**
- ❖ Assignments Statements
- ❖ Iterative structure
- ❖ Selection Structures

48. What is the key of assigning precise definition to primitives that are used in algorithms representation?

- ❖ **It removes problems of ambiguity**
- ❖ It adds ambiguity to algorithms
- ❖ It complicates algorithms description
- ❖ It increases the level of detail

49. How does the termination condition relate to the while statement in pseudocode?

It is the condition for modify the loop
It is the condition for executing the loop body

- ❖ It is the condition for initiating the loop
- ❖ **It is the negation of the condition appearing in the while structure**

50- While structure starts with checking _____

- ❖ Iteration
Value
- ❖ **Condition**
- ❖ Sequence

51- What term do computer scientists use to capture the idea of an algorithm being executable?

- ❖ Ambiguous
- ❖ Random
- ❖ Parallel

❖

❖ **Effective**

52-What approach does the imperative paradigm uses for the programing process?

❖ **Finding an algorithm and expressing it as a sequence of command**

❖ Object Oriented Approach

❖ Linear Scale development

❖ Functional programing approaches

53.. Let a unsorted list Fred, Alex, Diana, Byron, Carol so which one will be sorted at the first?

❖ Diana

❖ **Alex**

❖ ❖ Fred

❖ Carols

54.How many comparisons to sort the elements using insertion sort algorithm?

13,10,9,6,33,100

❖ **5**

❖ 7

❖ 9

❖ 3

55. How is the termination condition loop control?

❖ By skipping the test activity

❖ By repeating the initialization step

❖ By executing the test activity

❖ **By apply the modification step repeatedly**

56- What might be true about the value of finding a related problem in problem solving?

- ❖ It complicates the solution process
- ❖ It adds complexity to the current Problem
- ❖ **It helps develop general algorithms**
- ❖ It is irrelevant to the problem solving approach

57. Which of the following is essential for the representation of an algorithm?

- ❖ Natural Landscapes
Physical Objects
- ❖ Ambiguous Language
- ❖ **Well Defined primitives**

58. what is the primary role of the control process in a loop structure?

To execute the body of the loop

To reduce the flexibility of the algorithm

To avoid stepwise refinement

To guide the repetition of the loop

59. How many iterations are required to find 88 in the following Array?

{5,6,77,88,99}

- ❖ 2
- ❖ 3
- ❖ **4**
- ❖ 1

60- The initialization step structure establishes a starting _____

(A)Condition

(B)Total number of code line

(C)Function definition

(D)Body

61- In _____ paradigm, task of programmer is to loop a precise problem statement rather than designing an algorithm for solving the program

(A)Imperative

(B)Declarative

(C)Object oriented

(D)Functional

62- Polya's analysis of problem solving is to evaluate the solution for

(A)Consistency

(B)Cost

(C)Accuracy

(D)Time

Solved By Harry Amazon UAE Mentor

63- In the Context of the provided pseudocode, what is the purpose of the statement $Count=Count-1$?

Def Greeting ():

Count=3 while(count>0):

Print('Hello') count=count-1

(A) To decrement the counter

(B) To print a message

(C) To reset the counter

(D) To increment the counter

64- If while($i < n$) the loop will keep executing until 'i' remains

(A) Less than N

(B) Greater than and equal than n

(C) Less than or equal than n

(D) Equal to in

65. Which of the following is the correct Syntax for conditional statement?

(A) If(condition) Statement A Else Statement B

(B) If (condition Statement A Else Statement B

(C) If(condition) Statement A Else Statement B

(D) If(Condition)

66. What is the following is true about file flops?

(A) Produce output in group

(B) Accept inputs individually

(C) Generate output individually

(D) Generate output collectively

67. What is a correct expression for finding factorial where $f=1$, $i=1$; while($i \leq n$)?

(A) $F=f*n$

(B) $F=f-n$

(C) $F=f+n$

(D) $F=f^2n$

68. In what case both the print statement will be executed in the following code?

If(marks>60)

print(You have passed the exam)

Else

Print (You have failed the exam)

(A) Marks are less than or equal to 60

(B) Marks are greater than 60

(C) Both cannot be executed at a time

(D) Marks are less than 60

69- What is the significance of the statement $f=f*i$ in each iteration of the loop in the given pseudocode?

f=1 i=1;

while(1<=n):

*f=f*i; i=i+1;*

- ❖ it has no impact in the loop
- ❖ **it multiplies the current value of 'f' by loop counter 'i'**
- ❖ it subtracts the loop counter 'i' from the current value of 'f'
- ❖ it reset the value of 'f' to 1

70. What is the primary focus of a programmer in a declarative programming?

- ❖ **Developing a precise statement of the problem**
- ❖ Describe algorithms
- ❖ Developing problem solving algorithms
- ❖ Writing pseudo code

71- In what case both the print statement will be executed in the following code?

Marks=60

If(marks>50)

Print (You have passed the exam)

Else

Print (You have failed the exam)

(A) You have failed the exam

(B) You have passed the exam

(C) No message will display

(D) Both will display

72- What is the condition 'temperature>0' imply in the following pseudo code?

While (temperature>0):

Turn on heater

- ❖ Turn on the heater repeat until the condition is false
- ❖ **❖ Keep the heater on until the Temperature is greater than 0**
- ❖ ❖ Turn on the heater once.
- ❖ ❖ Skip turning on the heater.

73-In computer programming what come after the 'if' keyword in an if statement?

- ❖ Else
- ❖ Statement B
- ❖ **❖ Condition**
- ❖ Statement A

74.What distinguishes the declarative paradigm from the imperative program in programming?

- ❖ The emphasis on procedural programming
- ❖ The use of pre-established algorithms
- ❖ **Developing precise statements of problems**
- ❖ Describing Algorithms for problems solving

75-in the context of program development, what is the goal of finding a general algorithm?

- ❖ **To develop an algorithm that can solve all instance of a problem**
- ❖ To solve a particular instance of a problem
- ❖ To find a specific Solution for each instance
- ❖ To solve a specific problem without decomposition

76. SS protocol is the back bone of_____

- ❖ HTML5
- ❖ HTML
- ❖ HTTPR
- ❖ **HTTPS**

77. Which of the following is responsible for maintaining the anonymity of the actual client from the server over the internet?

- ❖ Routers
- ❖ **Proxy Server**
- ❖ Spam Filters
- ❖ Firewall

78. In the given example, what does the loop do?

While (ph level>4):

Add a drop of sulfuric acid

- ❖ Add a drop of sulfuric acid regardless of the ph level
- ❖ **Adds a drop of sulfuric acid if the ph level is greater than 4**
- ❖ Adds a drop of sulfuric acid only once
- ❖ Adds a drop of sulfuric acid if the ph level is the less than or equal to 4

79-Under_____ paradigm a program is viewed is an entity that accepts inputs and produce output.

- ❖ Declarative
- ❖ Imperative
- ❖ **Functional**
- ❖ Object Oriented

80-Which of the following is not a relational operator in C++?

- ❖ ==
- ❖ !=
- ❖ **% =**

❖ $> =$

81-In Pseudocode Algorithm can be represented as:

- ❖ Statics way
- ❖ **Dynamic ways**
- ❖ Informal way
- ❖ formal Way

82-Which of the following informal example illustrates the concept of repeated execution of the statement?

- ❖ **As long as there are tickets to sell, keep selling tickets**
- ❖ If there are tickets to sell, sell tickets
- ❖ Sell a ticket if there are tickets available
- ❖ Tickets are sold only once

Solved By Harry Amazon UAE Mentor

83-A translator which takes assembly language program as input & r produce machine language code as output is known as:

- ❖ **Interpreter**
- ❖ Assembler
- ❖ Debugger
- ❖ Compiler

84- The Sign of modulus is:

- ❖ .
- ❖ /
- ❖ **%**
- ❖ >

85. Which one of the following is correct for the symbolic representative of primitives?

- ❖ Abstract
- ❖ Semantic
- ❖ **Syntax**
- ❖ Systematic

86- What is the purpose of the program given below?

```
if(CGPA>3.0)
    count<<'Give Scholarship";
Else
count<<'Sorry You do not qualify for the
Scholarship:";
```

- ❖ Providing information about university policies
- ❖ Calculate the CGPA of the Student
- ❖ **Determine if a student qualifies for the scholar ship**
- ❖ Print a student semester grade

87. The set of tasks that ensure the software is correctly implemented a specific function is known as

- ❖ Validation
- ❖ **Verification**
- ❖ Modularity
- ❖ Requirement gathering

88. Why is the Therac-25 incident considered a software failure?

- ❖ It occurred in Texas
- ❖ It resulted in a man's death
- ❖ The software was believed to be correct
- ❖ **There was a technical issue in the software**

89. In the declarative paradigm, what does a programmer focus on when presented with a problem?

- ❖ **Developing a precise statement of the problem**
- ❖ Developing a sequence of commands
- ❖ Describing detail algorithms
- ❖ Finding a general purpose algorithm

90. Which is the correct format to find out a value from any given list?

- ❖ Search <>
- ❖ () Search
- ❖ **Search ()**
- ❖ To search

91. Which one of the following is the traditional approach of programming process?

- ❖ Object Oriented paradigm
- ❖ Declarative paradigm ❖ **Imperative paradigm**
- ❖ Functional paradigm

92. A program logic written in an ordinary language illustrating a structure similar to computer instruction is known as _____

- ❖ **Algorithms**
- ❖ Flowcharts
- ❖ Programs
- ❖ Pseudo code

93- What will be the output of the following statement? $int a = 10 + 4.867;$

- ❖ 14
- ❖ 10
- ❖ Computer error
- ❖ **14.867**

94-Which Programming Language was developing for scientist and engineering application?

- ❖ Machine Language
- ❖ **FORTAN**
- ❖ Assembly Language
- ❖ COBOL

95.How would you interpret the following pseudo code?

While (temperature>0):

Print ('Keep warm')

Next Instruction

- ❖ Print 'Keep warm' if the temperature is greater than to 0
- ❖ Print 'Keep warm' if the temperature is less than or equal than to 0
- ❖ **Print 'Keep warm' until temperature is greater than 0**
- ❖ Print 'Keep warm' and continue to the instruction

96. what is the primary purpose of the pseudo code unit represented by the statement " def name():?"

- ❖ **to define a loop structure**
- ❖ to request the service of the other Units

- ❖ to announce the title of the Program Unit
- ❖ To print a Message

97. What is the significance of the term 'posttest in loop structure'?

- ❖ Test for termination best loop execution
- ❖ Continuous testing during loop execution
- ❖ Loop testing perform in parallel
- ❖ **Test for termination after loop execution**

98- Reason Behind the Welch NHS IT Failure was

- ❖ Software Security issues
- ❖ weather Conditions
- ❖ **Software Technical issue**
- ❖ Employees Training

99. What is the following relates t 'Origami'?

- ❖ Building construction algorithms
- ❖ **Proper folding algorithms**
- ❖ Computer algorithms
- ❖ Programing algorithms

100. Each Programing language tends to approach the parallel processing paradigm and have different technology. In ADA we use _____ term for the purpose.

- ❖ Thread
- ❖ **task**
- ❖ function
- ❖ Method

101. In the context of the insertion sort algorithm, what is the restriction imposed on sorting a list?

- ❖ Make a tree of the list to sort entries
- ❖ **Sort using the same storage space without extra memory space**
- ❖ Insertion sort can only be used on the list containing numeric value

❖ Create A copy of the List to sort items one by one into the new list

102. If The condition in the if else structure is false what function will be executed based on the following pseudocode example?

if(condition): Processional ()

Else:

Reject Application ()

(A)None

(B)Process loan ()

(C) Both

(D)Reject Application)

103. In the following C/C++ Programing what does Z represent?

Z=X+Y;

(A)A Variable

(B) A constant

(C)A function

(D)A keyboard

104. what is the primary focus of pseudo code in the context of algorithm development?

❖ Algorithmic Complexity

❖ **Syntax- Semantic Structure**

❖ intuitive Notational Systems

❖ Formal programing language

105- Which of the following Symbol is used at the end of the line to separate statement in many imperatives language

(A)*

(B);

(C) ,

(D) .

105. For Sequential Search Algorithm technique, it is _____ to be list as sorted in alphabetic order in case of names list.

- ❖ Optional
- ❖ **Mandatory**
- ❖ Sometimes mandatory
- ❖ Not mandatory

106-Nature of an algorithm is _____ because its representation may Change.

- ❖ Tremendous
- ❖ Static
- ❖ Abstract
- ❖ **Dynamic**

107-what does the cycle pattern of a loop involve?

- ❖ Ignoring the condition and executing the body
- ❖ Checking the condition only at the end of the loop
- ❖ Executing the body continuously without interruption
- ❖ **Repeatedly checking the condition and executing the body**

108-How many times will the loop in the example below execute?

```
Int counter=1
while(counter<=5)
{
    Cout<<counter;
    Counter=counter+2;
}
```

- ❖ 5 times
- ❖ 4 times
- ❖ **3 times**

❖ 6 times

109- _____ refers data items that can take on only value true or false?

❖ Char

❖ Float

❖ **Boolean**

❖ Int

110- What is the key characteristic of an algorithm according to the formal definition provided in the text?

❖ Parallel Processing

❖ **Order and excitability**

❖ Repetition

❖ Ambiguity

111-The issue known as _____ might occur if rolling back one transaction affects others and cause a (A)chain reaction:

(B)**Cascading rollback**

(C)transaction failure

(D)deadlock

(D)transaction inconsistency

112- A car making factory makes car for their client. In factory design Pattern, Factory is considering as:

(A)Character

(B)Abstraction

(C)Instance

(D)**class**

113- Operation that are only partially completed in commercial system might lead to _____ information in the database. (A)Valid

(B)**incomplete**

(C)verified

(D)Accurate

114-During the implementation phase of software engineering what task is typically performed?

(A)System analysis

(B)Requirements gathering

(C)writing program

(D)creating modular design

115-In a list, what is the opposite end of the head called?

(A)End

(B)Tail

(C)Base

(D)Bottom

116-The manufactured product moves into maintenance phase for _____

(A)Error correction

(B)repair process

(C)error removal

(D)error detection

117-The binging of a list is called the _____ of the list.

(A)Devon

(B)bob

(C)head

(D)tail

118- what does a tree structure's hierarchical organization resemble?

(A)Stack (B)Array

(C)organization chart

(D)graph

119-Triples that have attractive A less than attribute X in relation B are include in the result for the condition _____

(A) $A.W=B.X$

(B) $A.W? \geq B.X$

(C) $A.W > B.X$

(D) $A.W < B.X$

120-How do software engineers often describe the relationship between requirements analysis and design?

(A)Both are focused on what

(B)requirement Analysis is about how and design is about what

(C)requirement Analysis is about how and design is about why

(D)Both are focused on how

121- What does basis path testing aim to achieve?

(A)identifying better strategies.

(B)Applying Efforts in a concentrated area

(C)Executing each instruction at least once

(D)identifying equivalence classes.

122-In a tree structure, what is the top node called?

- (A)parent node
- (B)Root Node**
- (C)Terminal Node
- (D)leaf Node

123-There we found that a register called a _____ is used to hold the address of the next instruction to be executed.

- (A)stack pointer
- (B)program counter**
- (C)Data pointer
- (D)timer register

125- Which of the following is correct option about information hiding in software development.

- (A)Validity of module may not be compromised
- (B)it only depend on internal compositional structure of modules
- (C)it hides all data of program modules
- (D)it prevents unnecessary dependency between modules**

126-what is the primary focus of the design phase in software engineering?

- (A)Constructing the software system
- (B)identify problems
- (C)creating a budgeting plan
- (D)Establishing requirements**

127-which organization play a role in improving profession and establishing standards for software quality control?

- (A)UNESCO, WHO, and WTO
- (B)ISO,IEEE and ACM**
- (C)NATO, IMF and UNICFF
- (D)NASA, NSA and CIA

128-Accuracy can be archived with the help of testing the result of _____ in the entire development process.

- (A)Every line of code
- (B)Each intermediate step**
- (C)last step
- (D)Few Steps

129-What was the initial focus in the early years of computing regarding software quality?

(A)Debugging process

- (B)Software Engineering processed
- (C)Certification programs
- (D)Software analysis

130. In a tree, what is the term of nodes at the other extreme, often called leaf nodes?

(A)Terminal Nodes

- (B)Root Nodes
- (C)Internal nodes (D)Parent Nodes

131-which of the Following is the three step software development Process, incorporating testing?

(A)Requirements analysis and confirmation, design and validation, and implementation and testing

(B)Requirements analysis, design and implement

- (C)Debugging, Software requirements specification, and implementation
- (D)Debugging, validation, and confirmation

132-What is the primary Focus of the Design phase in Software engineering?

- (A)Constructing the Software system
- (B)Creating a budgeting plan
- (C)identifying problems

(D)Establishing requirements

133-what is correct benefit of decorator pattern during software development?

- (A)work and combine the modules
- (B)increase software complexity

(C)it offers standardized way of implementation system

- (D)it designs the hardware of the system

134- The format in which information is displayed by spreadsheet program is similar to the format used in the _____

(A)Hierarchical model

(B)Relational model

- (C)object- oriented model
- (D)Network model

135- What is a Stack in the Context of data Structures?

(A) A list with entries inserted and removed only at the head

(B) A list with entries removed only at the tail

(C) A list of sounds recorded on a CD

(D) A list with entries arranged sequentially

136- A typically database application involves two major layer the application layer and the _____ management layer.

(A) Scheme

(B) data base

(C) user

(D) data

137- In a List, what is the opposite end of the head called?

(A) tail

(B) Base

(C) Bottom

(D) End

138- The simplest form of array in the _____ array.

(A) two dimensional

(B) multi-dimensional

(C) one dimensional

(D) all of them

139- The SELECT operation extracts _____ from a relation.

(A) A cell

(B) table

(C) columns

(D) rows

140- What is an aggregate type in programming?

(A) Block of data items with different data types

(B) 2- dimensional array

(C) an integer variable

(D) rectangular array of numbers

141-What is the role of integrated Development Environments (IDEs) in software engineering?

- (A)they hinder collaboration among developers
- (B)They focus solely on project planning
- (C)They provide a single, integrated package for development software**
- (D)They eliminate the need for project documentation

151-A _____ is a description of the entire database structure that is used by the database.

- (A)Schema**
- (B)subschema
- (C)super schema
- (D)nonschema

152-_____ is a phase that makes distinction between the task of as software Analyst a programmer:

- (A)Analysis
- (B)testing
- (C)implementation**
- (D)design

153-The node at the top is called _____ node:

- (A)siblings
- (B)root**
- (C)terminal
- (D)head

154- How do we refers to nodes that have the same parent in a tree?

- (A)Ancestors
- (B)Descendants
- (C)children
- (D)siblings**

155- _____ is the field of engineering that deals with designing system's interface by considering

- (A)the human physical abilities.**
- (B)Thermo dynamics
- (C)Ergonomics**
- (D)Cognatic

156-What is the approach called when prototypes are discarded in favor of fresh implementation of the final design ?

- (A)Incremental prototyping
- (B)Evolutionary prototyping
- (C)Throwaway prototyping**
- (D)Rapid prototyping

157-Retrieving an employing's job history in an object- oriented database involves asking them _____ to reports its job history .

(A)Manager

(B)DBMS

(C)network

(D)employee object

158- ISO/IEC 15504 is a set of stands jointly development by which organization?

(A)IEEE and IEC

(B)ISO and IEEE

(C)ISO and IEC

(D)ACM and IEC

159- Which is the significance of computer- Aided software engineering(CASE) tools in the software development process?

(A)They focus solely on theoretical research

(B)They hinder progress tracking

(C)They discourage collaboration among teams

(D)They streams and simply various aspects of development

160-If a transaction request access to an item that is already locked with an exclusive lock _____

(A)The additional access is denied

(B)The lock is shared with the requesting transaction

(C)the transaction us rolled back

(D)the request is granted immediately

161-Subschemas are crucial in providing _____ to different users with in a database.

(A)similar access

(B)restricted access

(C)identical information

(D)universal access

162-What is the primary focus of the maintenance phase in software engineering?

(A)redesigning the entire system

(B)repairing software defects

(C)studying the program

(D)identifying the bugs in the software

163-The point at which all the steps in a transaction have been recorded in the log is called the ____

(A)Roll back

(B)commit point

(C)Schema

(D)snapshot

164-Which intermodule coupling occurs when a module passes control of execution to another, as in a function call?

(A)Logical coupling

(B)none of given

(C)data coupling

(D)control coupling

165- _____ is the field of engineering that deals that deals with designing system interface by considering the human's mental abilities.

(A)genetics

(B)cognetics

(C)thermodynamics

(D)Ergonomics

166- What is the purpose of system documentation?

(A)explain how to use the software features

(B)describe the software internal composition for maintenance.

(C)serve as a marketing tool

(D)provide information for system installation

167- interior feature of the system can be ignored by the programmer / use the abstraction technique is also called ____

(A)Cohesion

(B)Coupling

(C)assembling

(D)black box

168-Which phase provides a road map for during project planning?

- (A) Coding
- (B) software Design
- (C) testing
- (D) system analysis**

169-The beginning of a list is called _____ of list.

- (A) Tail
- (B) bob
- (C) head**
- (D) devon

170- Operations that are only partially in completed in commercial system might lead to _____ information in the databased.

- (A) incomplete**
- (B) Verified
- (C) Accurate
- (D) Valid

171- ISO makes software _ for software companies to guarantee control.

- (A) Standards**
- (B) software
- (C) queries
- (D) Hardware

172-In a queue, where are entries inserted?

- (A) At the base
- (B) At the tail**
- (C) At the top
- (D) At the Head

173- Interior Feature of the system can be ignored by programmer/ user, this abstraction technique is also called:

- (A) Cohesion
- (B) couple
- (C) black box**
- (D) Assembling

174- A module should be designed so that other modules do not need access to its access to internal information, this is called:

- (A) Information access
- (B) cohesion
- (C) information hiding**
- (D) coupling

175- How is the depth of a tree defined?

- (A) The number of only first horizontal layer with the tree**
- (B) the number of the top nodes in the tree
- (C) the number of nodes from root to leaf in the tree
- (D) the number of only leaf nodes in the tree

176- "The Textbox" command is located in _____ ribbon in MS Word.

- (A) insert**
- (B) view
- (C) layout
- (D) Design

177- The defaulter of MS word documents is:

- (A) paper
- (B) Office**
- (C) Flow
- (D) Word

178- In the insert Tab of Microsoft word where specially where specially is the page group location?

- (A) Fr right
- (B) For left**
- (C) Center
- (D) Bottom left

179- The fifth group in the home ribbon in the: _____

- (A) Help
- (B) Inserted
- (C) Editing**
- (D) Style

180- The choose a bulleting or numbering style in MS word, which one of the following option is correct?

- (A) By clicking the "Save" Button
- (B) it not possible to change the Style
- (C) You can select the one u prefer to use**
- (D) By Applying the "Bold" formatting option

181- A rapidly subject that is closely associated with databased technology is _____ which consist of techniques for discovering pattern in collection of data

- (A) Opening mining
- (B) text mining
- (C) Sentiment analysis
- (D) data mining**

182- A file's _____ is normally stored as a separate file on the same mass storage device as the _____.

- (A) Index, indexed file**
- (B) flat, flat file
- (C) database, database file
- (D) Sequential, sequential file

183- In Microsoft word what is the goal behind placing commands with in groups and table?

- (A) To minimize the number of mouse**
- (B) to hide command from users
- (C) to discourage software usages
- (D) to confuse users

184- Which risk category primarily deals with threats like online scamming and identity theft?

- (A) Contact Risk
- (B) Information Privacy
- (C) Electronic Theft**
- (D) Online marketing

185- In Microsoft Word, which ribbon tab is used to access the hyperlink function?

- (A) Home
- (B) Insert**
- (C) Home
- (D) Format

186- when using style to format a document what advantage it offers?

- (A) Advanced editing features
- (B) Faster spell checking
- (C) Consistent application of formatting choices**
- (D) Increased document security

187-The conversion from key values to bucket numbers in hashing is done by a hashing in done by a _____

(A) Hash Function

- (B) sorting function
- (C) search function
- (D) retrieval function

188- Each statement in natural language can have:

- (A) Unique Meaning
- (B) Same meaning
- (C) one meaning

(D) Multiple meaning

189- what does a formatting style document encompass?

(A) only paragraph Alignment

(B) Font name, size, color, paragraph, alignment and spacing

- (C) only shading and borders
- (D) only font size

190- In MS word we can set line spacing from group _____

- (A) Clipboard
- (B) insert
- (C) font

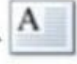

(D) Paragraph

191- In MS word short cut key of paste is _____

- (A) Ctrl + v**
- (B) Ctrl + p
- (C) Alt + v
- (D) Alt + p

Solved By Harry Amazon UAE Mentor

Which of the following icons represents the "WordArt" feature in MS Word?

A.  B.  C.  D. 

Select the correct option

<input checked="" type="radio"/>	C
<input type="radio"/>	D
<input type="radio"/>	B
<input type="radio"/>	A

193- The classic employee file uses _ to contain information about a single a Single employee in the company:

- (A) records
- (B) keys
- (C) buckets

(D) hash function

194- generally the Footer feature is used for presenting _____ in an MS word Documents?

- (A) Paragraph heading
- (B) Picture caption

(C) page numbers

- (D) Documents body

195- In context of health computer science have impacts

- (A) Dangerous
- (B) Negative

(C) Both Positive and Negative

- (D) Positive

196- How have governments responded to the issue of email spam?

- (A) They Have ignored the problem
- (B) They have increased their own spam emails
- (C) They have encouraged spam activities
- (D) They Have Implemented specific regulations**

197- In Microsoft word, which of the following is Not a category available for page in the page group under the insert tab?

- (A) Black Page
- (B) Paragraph page**
- (C) Cover Page
- (D) Page Break

198- What is the initial Step to inset a picture from a file into word documents?

- (A) Click on shapes
- (B) Click on Pictures in illusions**
- (C) Click on Smart Art Button
- (D) click on Cycle in the Left Pane.

199- ____ begin the paragraph with a large letter that spills down into the text:

- (A) Word art
- (B) text box
- (C) Quick parts
- (D) Drop cap**

200- Which feature allows you to write mathematical or scientific formula using insert Ribbon In MS Word?

- (A) mathlab
- (B) mathbox
- (C) Sciencelab
- (D) Equation**

201- When does the Mini Toolbar appear in Microsoft word?

- (A) It appears when You save a document
- (B) it appear when you open a new document
- (C) it appear when you select text**
- (D) it appear when you using word

202- How can you input text into a table cell in Microsoft Word?

- (A) Click on insert tab and start typing
- (B) Click once on the cell and start typing**
- (C) Right click on the cell and Type text
- (D) Double click on the cell and Type text

203- The _____ allows you to save text or Graphics as “Building Blocks” and then call it up quickly when u need it.

(A)Media

(B) Quick Parts

(C) text Box

(D)Equation

204- In MS word which Group Contain the header and Footer feature?

(A) Text Group

(B) page group

(C)Header & footer group

(D) symbol group

205- Which of the following is often integrated with content filter in the context of the internet?

(A)Antivirus Software

(B) Internet Firewalls

(C) Search Engines

(D) Email servers

206- Act that Mandates about financial institute dealing with the private information of individuals

(A) HPPA

(B) COPPA

(C) Gramm-Leach-Bliley

(D) FCPA

207- What are the groups available under the insert tab in Microsoft Word?

(A)Media, Group, Link Research Group

(B)pages Group, illustrations Group Index Group

(C) Page Group, tablets Group Footnotes Group

(D) Page Group Tables Group, Illustration Group

208-In MS word we can highlights a text using color from group_____

(A)Clipboard

(B)Font

(C)Insert

(D)Paragraph

209-In Microsoft Word What is the Goal Behind placing command with in groups tabs?

(A) To Discourage software usage

(B)To hide commands from user

(C) To confuse user

(D)To minimize the number of mouse clicks

210-In MS word format pointer is in the group of _____

(A) Clipboard

(B) Design

(C) Font

(D) Insert

211- Which of the following is a famous example of word processing Software?

(A) MS Access

(B) MS power Point

(C) MS word

(D) MS excel

212- There are many type of sensor including

(A) All of them

(B) Camera

(C) Range sensor

(D) Microphone

213- Which of the following is the correct reason why parents choose to use Parental controls on digital devices for their children?

(A) To facilitate late- night phone checking

(B) To promote responsible and disciplined technology using

(C) To engage in arguments with their children

(D) To encourage more screen time

215- Turing test was purposed in:

(A) 1950

(B) 1970

(C) 1980

(D) 1960

216- A _____ is a file that is accessed in a serial manner from its beginning to its end as though the information in the file were arranged in one long row.

(A) flat file

(B) index file

(C) data base

(D) sequence file

217- _____ Begin the paragraph with a large letter spills down into text

(A) Text Box

(B) Drop Cap

(C) Quick Parts

(D) Word Art

218- In Hash file, the key used to identify an employee's record is the _____

- (A) Departments
- (B) Employee position
- (C) Name

(D) identification number

219- Design ribbon can have:

(A) Page border

- (B) Shapes
- (C) Word art
- (D) Symbols

220- Requiring certain degree of uniformity of the style size and orientation of Symbol is a(n):

- (A) Advantage
- (B) Disadvantage
- (C) Ambiguity

(D) Fast processing

221- In MS word short cut key of bold is _____

(A) Ctrl + b

- (B) Ctrl + v
- (C) Click the undo button
- (D) Alt + p

222- When editing a documents in MS word what advantage does the find and replace feature provide:

- (A) Automatic spell checking
- (B) Auto saving functionality

(C) Time saving by avoiding manual search

- (D) Font customization options

223- When we draw a table in MS word the table have initial Colum(s)

- (A) Two
- (B) Zero
- (C) One**
- (D) Multiple

225- A device that responds to stimuli from its environment

- (A) Computer
- (B) Agent**
- (C) A device
- (D) Router

225- Page group indicates option:

- (A) Page margins
- (B) Cover page**
- (C) Page color
- (D) all of these

226- A patent can last:

- (A)40 years
- (B)30 years
- (C)50 years

(D)20 years

227- Requiring certain degree of uniformity of the style, size and orientation of symbols is a(n) (

A) disadvantage

(B)Advantage

(C)Fast processing

(D)Ambiguity

228-Information Technology has _____ overarching standardization in place:

(A)No

(B)Old

(C)Complex

(D) Multiple

229- Find option include:

(A)go to

(B)find

(C)advantage find

(D) All

230- In Microsoft word what is the purpose of entering a word or phrase while adding a hyperlink:

(A) Inserting a table

(B) Displaying the hyperlink text

(C)Changing font style

(D)Creating a new paragraph

231- In Microsoft Word, what is the purpose of the "Go to" command under the Find command?

(A) To select all text in the document

(B)to Select text with similar formatting

(C) To immediately go to a page section o marked location

(D) to Select hidden shapes behind text

232- The Arrange Group is placed on the _____ ribbon in MS word.

(A)Reference

(B) Review

(C) Layout

(D) Home

233- When does the mini Toolbar appear in Microsoft Word?

(A)It appears when you save a document

(B)it appears randomly while using word

(C)it appears when you pen a new documents

(D) it appears when you select text

234- Which feature is not available in the "Text" group under the insert tab in MS word?

- (A) Link
- (B) Date & time
- (C) Signature line
- (D) Object

235- In MS word short cut key to select the whole the txt in a documents is _____

- (A) Alt +w
- (B) Alt +a
- (C) Ctrl + a
- (D) Ctrl + w

236-

Which of the following icons belongs to the "Text Box" feature in MS Word?

A  B  C  D 

Select the correct option

<input type="radio"/>	A
<input checked="" type="radio"/>	D
<input type="radio"/>	B
<input type="radio"/>	C

237- What risk involves potential exposure to inappropriate or unsuitable products?

- (A) Information Security
- (B) Content Risk
- (C) Contact Risk

(D) Online marketing

238- When We Apply header it is shown at:

- (A) End page of document
- (B) Bottom of documents
- (C) every page of documents
- (D) start page of documents

239- What is the significance of the Home ribbon in MS word?

- (A)it contains decorative elements for documents
- (B)it only contains the clipboard group
- (C)it is one of the least ribbons

(D) it is one of the most important ribbons

240- In Microsoft Word what is the purpose of entering a word a phrase while adding a hyperlink? (A)

- (A)Creating a new paragraph
- (B)Inserting a table
- (C)changing font style

(D) Displaying the hyperlink text

241- Which of the following features to add the top margin on the page in MS word?

- (A)Header**
- (B)footer
- (C)comments
- (D)text box

242- In MS word, we have to write an equation with 2 as a number and 3 as its power which option is suitable for this purpose?

(A)Superscript

- (B)Font size
- (C)Case
- (D)Subscript

243- In Microsoft word 2007, category of illustration allows the inclusion of media files like sound and video clips?

(A)Clip art

- (B) shapes
- (C) pictures
- (D)canvas

244- Theoretical track is a part of:

- (A) Amplifying
- (B) Ai domain**
- (C) Declarative knowledge
- (D) Ai response

245- What are the groups available under the insert tab in Microsoft Word?

- (A) Page group, illustration group index group
- (B) Page Group tables group footnotes group

(C)Page Group, Tablets Group, illustration Group

- (D)Media Group, Links Group, Research group

246- if we want to link two sentence of a same document we generally use:

- (A) Hyperlink
- (B) Cross reference
- (C) Reference
- (D) Bookmark

247- USA has passed legislation allowing The government to actually monitor citizens in the name of:

- (A) National Security
- (B) National ethics
- (C) Data ethics
- (D) Data Security

248- Electronic Theft include:

- (A) Harmful advice
- (B) Online scam
- (C) unsuitable products (D)
- Cyber bullying

249- Eye for Long amount of time is not meant to look:

- (A) Continuously
- (B) 2D
- (C) Constantly
- (D) 1D

250- _____ feature is used to change the font and paragraph properties of the entire documents in MS word.

- (A) Symbols
- (B) text Box
- (C) Style Set
- (D) Word Art

251- The amount of paper American use in a year is _____

- (A) 83 Million tons
- (B) 90 million tons
- (C) 95 million tons
- (D) 85 million tons

252- In Microsoft word how can you close the mini Toolbar after you've used it?

- (A) Use the 'ALT + F4" keyboard shortcut
- (B) it automatically closes after you format the text
- (C) Click anywhere outside the mini Toolbar
- (D) Click anywhere outside the mini Toolbar

253- Command that can immediately go to a page or any marked location with your document:

- (A) go to
- (B) format
- (C) search
- (D) ribbon

254- The index in an indexed file helps in locating records by _____

(A) Storing data redundantly

(B) finding the identify key

(C) sorting all entries

(D) arranging records sequentially

255- A track that leads to a simulation oriented mythology:

(A) Intelligent

(B) Proper

(C) Engineering

(D) Theoretical

256- In MS word short cut key of Italicize text in MS word _____

(A) Ctrl + b

(B) Ctrl + i

(C) Alt + v

(D) Alt + p

257- The field of artificial intelligence is being pursed along path:

(A) 4

(B) 3

(C) 2

(D) 5

258- In hash file hashing identifies the location of a record of a directly from the _____

(A) Key

(B) Algorithm

(C) bucket

(D) index

259- What is the goal of using parental controls?

(A) To promote responsibility and discipline in children

(B) to exercise authoritarian control

(C) to encourage excessive screen time

(D) To make children more disobedient

260- In MS word, what happen when you click the Cut button in the Clipboard group?

(A) The text is cut and placed on the clipboard

(B) The text is formatted

(C) the text is pasted in the document

(D) The text is copied to the clipboard

261- insert tab can have page?

(A) Styles

(B) All of these

(C) pages

(D) clipboard

262- In the Context of maintaining employee records, an index is typically used for quick retrieve based on _____

(A) Employee identification number

(B)Employee's department

(C)Employee's name

(D)Employee's date of birth

263- In MS word which group should the user select to perform the cut operation?

(A)Voice

(B)paragraph

(C)Style

(D) Clipboard

264- An index for a file contain a list of _____ stored in the file.

(A) directory path

(B)keys

(C)data type

(D)file names

265- Procedural knowledge is learning:

(A)"How"

(B)"When"

(C)"what"

(D)"slowly"

266- Usual way of protecting software is:

(A) patent

(B)copy right

(C)Rules

(D)company monogram

267-- Access to the forbidden literature is because of:

(A) Computer

(B)Identity theft

(C)Cyber Bullying

(D) Looking privacy

268- In Microsoft word what does the quick Access Toolbar Provide easy access to?

(A)Installed applications

(B) Frequently used commands

(C)System setting

(D) internet browsing

269- processing a sequential file involves detecting when _____ is reached?

(A)A modification

(B)A new Record

(C)The end of the file (EOF)

(D) The beginning

270- In MS word, Paragraph group has following option _____

- (A) Text Highlight Color
- (B) Paragraph color

(C) Shading

- (D) copying

271- In MS word, which of the following features is not available in the "Text" group of the "insert" ribbon.

- (A) crop cap

(B) symbol

- (C) Word Art
- (D) text box

272- we can add charts in MS word from Group:

- (A) Symbols
- (B) Table

(C) Illustrations

- (D) Apps

273- which Tab should you access to manage the overall design and layout of a table in Microsoft Word?

(A) Table Layout

- (B) Insert Table
- (C) Table view
- (D) Table Design

274- The field of linguistic tends towards which direction:

- (A) Engineering
- (B) Ai

(C) theoretical

- (D) business

275- In MS word, you can insert text with special styles using the Word Art command available in the _____ group of insert Ribbon.

- (A) Design
- (B) Illustration
- (C) styles

(D) text

276- The index for a file is usually stored _____

- (A) with the Ram

(B) As a separate file on the same device

- (C) as a part of the main file
- (D) separately on a different device

277- In MS word we can increase the size of text from home ribbon group called _____

- (A) style
- (B) Paragraph
- (C) Clipboard

(D) font

278- The fifth group in the home ribbon is the:

(A) Editing

- (B) Help
- (C) Style
- (D) Insert

279- In MS word different Type of effect on the text can be applied with:

- (A) word art
- (B) quick parts
- (C) All of given**
- (D) text Box

280- In Hash file , of a disproportionate number of key happen to hash to the same bucket it may cause _____

(A) Clustering

- (B) even distribution
- (C) faster search
- (D) efficient retrieval

281- What does Microsoft word generally insert a black page automatically?

- (A) when open the documents
- (B) when saving the document

(C) while typing

- (D) when applying formatting

282- in Microsoft word which button are part of quick access toolbar by default?

- (A) Save undo, redo/repeat quick print

(B) Bold Italic underline

- (C) Copy, Paste , cut
- (D) Print close open

283- Which feature is available in the arrange group under the layout in MS word?

- (A) File
- (B) writing
- (C) Arrangement

(D) Send backward

284- In MS word, what is the Location that is used to Temporary State the information that has been cut from somewhere?

(A) Clipboard

(B) Drop down menu

(C) Home tab

(D) ROM

285- In MS word we have paste _____ option (s)

(A) no

(B) one

(C) multiple

(D) two

286- What does the expender arrow in the font group do?

(A) change the font color

(B) opens the Font Dialog Window

(C) Underline text

(D) Increase font size

287- Act that ranges government on wire taps to include transmission of data is:

(A) ECPA

(B) HIPPA

(C) Gramm-Leach-Bliley

(D) COPPA

288- Which Group of Commands in Microsoft words includes Find, replace, and Select?

(A) Formatting group

(B) Editing group

(C) Insert group

(D) View group

289- From a perspective on entire system in an operating system is like _____

(A) A fragmented file

(B) A single large file

(C) A randomly arranged file

(D) one large indexed file

290- Which of the following significantly increases the chances of fraudulent activity?

(A) Identity theft

(B) Gaming addiction

(C) Cyber bullying

(D) Terrorism

291- Social sites indicates _____

- (A) Twitter
- (B) Goggle
- (C) Bing
- (D) All of these**

292- Which of the following commands is available in the drop down menu of the Wrap text feature in MS word

A: top and bottom B: Behind Text C: in front of Text

- (A) A and B
- (B) A, B and C**
- (C) A only
- (D) B and C

293- One way to identify the ECF is by Placing a special record known as a _____ at the end of the file.

- (A) Marker
- (B) Terminator
- (C) Pointer
- (D) Sentinel**

294- What is the primary purpose of content filtering in Firewall?

- (A) Enhancing access to all content
- (B) Allowing access to harmful items
- (C) Maintain anonymity of local machine
- (D) Preventing access to harmful item**

295- Which one of the following acts as a security guard between the internet and your local area network?

- (A) System security
- (B) Firewall**
- (C) Internet
- (D) Network Security

296- Can-Spam act applies in:

- (A) UK
- (B) UAE
- (C) Canada
- (D) US**

297- The style group in the home ribbon in this

- (A) fifth group
- (B) fourth group**
- (C) Second group
- (D) third group

298- Displaying text in two Columns feature in which Tab of MS word?

- (A) Review
- (B) Design
- (C) Insert

(D) Page Layout

299- In Microsoft Word which feature allows you to change a specific word or phrase throughout the entire document effortlessly?

(A) Find and replace

- (B) Spell check
- (C) Format Pointer
- (D) Select All

300- In Microsoft word which group under the insert tab is primarily used to create links with the documents or to external source?

- (A) text
- (B) page

(C) links

- (D) symbols

301- A mark or any other distinctive sign associated with production is called:

(A) Trademark

- (B) Copyright
- (C) company monogram
- (D) patent

301- Computer security is also known as _____

- (A) copyright

(B) cyber security

- (C) Firewall security
- (D) Privacy

302- Data mining is practiced on _____ data collection called data ware houses.

- (A) forceful
- (B) dynamic
- (C) vibrant

(D) static

303- People are working in sitting due to computer and thus have more chance to develop _____

- (A) thinking

(B) Obesity

- (C) creativity
- (D) Harmful Habits

304- nformation that was once buried in arcane records has become accessible because of?

(A) Database

- (B) Online management
- (C) Artificial intelligence
- (D) Computer

305-What actions or functionalities are triggered when the "Insert Table" option located within the Insert tab is clicked?

- (A) A new table is inserted at the current cursor position.
- (B) A dialog box appears asking for table dimensions.**
- (C) A table design window opens for customization.
- (D) The document closes without saving changes.

306- AI is helping to make:

- (A) Smartphones
- (B) Online education
- (C) Robots**
- (D) DBMS

307-In Microsoft Word, what does the user need to click to access the Numbering Library?

- (A) Numbering button
- (B) Numbering tab
- (C) Paragraph tab**
- (D) Numbering group

308-Which tab should you access to manage the overall design and layout of a table in Microsoft Word?

- (A) Table Layout
- (B) Insert Table
- (C) Table Design**
- (D) Table view

309-A styles option includes font

- (A) Color
- (B) Name
- (C) Size
- (D) All of these**

310-One method that got on social media is the idea of a parent/child cell phone

- (A) Contract**
- (B) Privacy
- (C) Limitation
- (D) Usage

311- Copyright can be applied on:

(A)Artistic work

(B)All of these

(C)Music

(D)Dramatic works

312-Which of the following is a robot used in medical field:

(A)Belgian robot

(B)MED robot

(C)TUG robot

(D)Smart Doc

313-What is the primary purpose of the Styles group in Microsoft Word?

(A)Inserting images

(B)Creating tables

(C)Applying formatting options to text

(D) Spell checking

314-Which feature of MS Word offers to create special effects like adding artistic flair to a text?"

(A)SmartArt

(B)Drop Cap

(C)WordArt

(D)Text Box

315-In Microsoft Word, what function does the Blank Page option in the Insert tab serve?

(A)Insert a table.

(B)Add a new page anywhere in the document.

(C)Create a cover page.

(D)Insert a header/footer.

316-Matching geometric characteristics technique of recognizing images is used in: .

(A)Optical character recognition

(B)Sorting pictures

(C)Mark recognition

(D)Taking pictures

317- _____ are ideal for storing data that will be processed in the order in which the file's entries are stored.

(A)Index files

(B)Sequential files

(C)Flat files

(D) Database files

318- _____ are ideal for storing data that will be processed in the order in which the file's which part of the world, spam-law requirements are generally less strict?

(A) Australia

(B) Africa, Asia, and South America

(C) North America

(D) Europe

319-Meaning of a statement in natural language depends on its: .Choose the right answer:

(A) Grammar

(B) Formatting

(C) Style

(D) Context

320-In Microsoft Word, how can you access the table option in Microsoft Word?

(A) Home tab > Tables group

(B) Layout tab > Tables group

(C) References tab > Tables group

(D) Insert tab > Tables group

321-Which of the following significantly increases the chances of fraudulent activity?

(A) Gaming addiction

(B) Cyber bullying

(C) Identity theft

(D) Terrorism

Solved By Harry Amazon UAE Mentor

What was the initial focus in the early years of computing regarding software quality?

Select the correct option

<input type="radio"/>	Certification programs
<input type="radio"/>	Software engineering procedures
<input checked="" type="radio"/>	Debugging process
<input type="radio"/>	Software Analysis

322- Correct Answer is C: **Debugging process**

What is the significance of Computer-Aided Software Engineering (CASE) tools in the software development process?

Select the correct option

<input type="radio"/>	They focus solely on theoretical research.
<input type="radio"/>	They hinder progress tracking.
<input checked="" type="radio"/>	They streamline and simplify various aspects of development.
<input type="radio"/>	They discourage collaboration among teams.

323- Correct Answer is C: **They Streamline and simplify various aspects of development**

Database technology, combined with data mining techniques, is an important _____ tool.

Select the correct option

- Communication
- Data storage
- Financial
- Decision-making

324- Correct Answer is B: **Data Storage**

Solved By Harry Amazon

What is a design pattern in the context of software engineering?

Select the correct option

<input type="radio"/>	An overview of the software problem
<input checked="" type="radio"/>	A pre-developed model for solving recurring software problem
<input type="radio"/>	A recurring problem in software development
<input type="radio"/>	A specific coding language syntax

325-Correct answer is B: **A pre-developed model for solving recurring software problem**

Solved By Hai

Which phase provides a road map for the developers during project planing?

▶ Select the correct option

<input type="radio"/>	System Analysis
<input type="radio"/>	Testing
<input type="radio"/>	Coding
<input type="radio"/>	Software Design

326- Correct answer is D: **Software Design**

327- Array is _____

(A) one dimensional

(B) two dimensional

(C) three dimensional

(D) four dimensional

A major role of the DBMS in commercial systems is to maintain the database's integrity by guarding against _____

Select the correct option

<input type="radio"/>	Complete operations
<input type="radio"/>	Intentional deletions
<input type="radio"/>	Small errors
<input checked="" type="radio"/>	Unintentional interactions

328- Correct Answer is D: **Unintentional interactions**

Solved By Harry Amazon

What does the ISO 9000 series of standards address?

Select the correct option

<input type="radio"/>	Hardware engineering only
<input type="radio"/>	Software development only
<input checked="" type="radio"/>	Design, production, installation, and servicing
<input type="radio"/>	Networking protocols

329- Correct Answer is C: **Design production, installation and serving**

Solved By Hani

Accuracy can be achieved with the help of testing the result of _____ in the entire development process.

Select the correct option

<input checked="" type="radio"/>	Each intermediate step
<input type="radio"/>	Every line of code
<input type="radio"/>	Last step
<input type="radio"/>	Few steps

330- Correct Answer is A: **Each intermediate step**

Solved By Harry Amazon

In a two-dimensional array, how are positions identified?

Select the correct option

<input type="radio"/>	Numerical index numbers
<input type="radio"/>	same sizes of entries
<input type="radio"/>	Field names
<input checked="" type="radio"/>	Pairs of indices

331- Correct Answer is D: **Pair of Indices**

Which phase provides a road map for the developers during project planing?

Select the correct option

<input type="radio"/>	Testing
<input checked="" type="radio"/>	Software Design
<input type="radio"/>	Coding
<input type="radio"/>	System Analysis

332- Correct Answer is B: **Software Design**

Solved By Halima

The SELECT operation extracts _____ from a relation.

Select the correct option

<input type="radio"/>	a cell
<input checked="" type="radio"/>	rows
<input type="radio"/>	columns
<input type="radio"/>	table

333- Correct Answer is B:

Rows

Solved

Mentor

What is cited as a beneficiary of research in human-machine interface design

Select the correct option

<input type="radio"/>	Database management systems
<input type="radio"/>	Networking protocols
<input type="radio"/>	Source code repositories
<input checked="" type="radio"/>	Smartphone interface

334- Correct Answer is D: **Smartphone interface**

Solved By [TutorialsPoint](#)

A transaction requiring exclusive access will _____

▶ Select the correct option

<input type="radio"/>	Share the access with other transactions
<input type="radio"/>	Grant shared access to other transactions
<input type="radio"/>	Automatically gain access without checks
<input type="radio"/>	Be forced to wait if the item is already exclusively locked

335- Correct Answer is D: **Be forced to wait if the item is already exclusively locked**

Solver

Pre-developed model of solving recurring problems in software is called

Select the correct option

<input type="radio"/>	GUI
<input type="radio"/>	Specific Code
<input checked="" type="radio"/>	Design pattern
<input type="radio"/>	Modules

336- Correct Answer is C: **Design Pattern**

Solved BY

----- are the sophisticated software packages that are primarily designed for the software engineering en

elect the correct option

IDS's

EDS's

EDi's

IDE's

Activate Windows

337- Correct Answer is D: IDE's

Solved By Harry Amazo

Why was the waterfall model considered rigid in its approach to software development?

Select the correct option

<input type="radio"/>	It encouraged creative problem solving
<input type="radio"/>	It allowed variations in the development process
<input type="radio"/>	It embraced a free-wheeling trial-and-error process
<input checked="" type="radio"/>	It insisted on a sequential completion of all phases

338- Correct Answer is D: **It insisted on a sequential completion of all Phases**

Solved By Harry

----- Model allows the development process only in one direction.

Select the correct option

<input type="radio"/>	Spiral
<input type="radio"/>	Incremental
<input checked="" type="radio"/>	Waterfall
<input type="radio"/>	RAD

339- Correct Answer is C: **Waterfall**

Solved By Harsh

From a lay- person's perspective, design is often equated with

Select the correct option

<input type="radio"/>	Where
<input type="radio"/>	Why
<input checked="" type="radio"/>	How
<input type="radio"/>	What

340- Correct Answer is C: **How**

Solved

What is the origin of design patterns in software engineering?

Select the correct option

<input type="radio"/>	Computer science research
<input type="radio"/>	Mathematics
<input checked="" type="radio"/>	Traditional architecture
<input type="radio"/>	Artificial intelligence

341-Correct Answer is C: **Traditional architecture**

Solved By Harry

What does a tree structure's hierarchical organization resemble?

Select the correct option

<input type="radio"/>	Graph
<input type="radio"/>	Stack
<input checked="" type="radio"/>	Organization chart
<input type="radio"/>	Array

342- Correct Answer is C: **Organization Chart**

Solved By

How do software engineers often describe the relationship between requirements analysis and design?

Select the correct option

- | | |
|----------------------------------|---|
| <input checked="" type="radio"/> | Requirements analysis is about what, and design is about how. |
| <input type="radio"/> | Both are focused on what. |
| <input type="radio"/> | Requirements analysis is about how, and design is about what. |
| <input type="radio"/> | Both are focused on how. |

343- Correct Answer is A: Requirement analysis is about what, and design is about how

Solved By Harry Am

The Development cycle in XP involve?

Select the correct option

<input type="radio"/>	Formal documentation
<input type="radio"/>	Repeated cycles of analysis, design, implementation, and testing
<input type="radio"/>	Sequential testing
<input type="radio"/>	Monthly releases of the software

344- Correct Answer is B: "Repeated cycles of analysis, design, implementation and testing"

Solved BY

When using PROJECT, if multiple columns are required, they are specified _____.

Select the correct option

<input checked="" type="radio"/>	Using a comma
<input type="radio"/>	Using quotation marks
<input type="radio"/>	Using brackets
<input type="radio"/>	Separately

345- Correct Answer is A: "Using a Comma"

Solved By Harry All...

What does a primitive data type in programming languages allow

▶ Select the correct option

- | | |
|-----------------------|---|
| <input type="radio"/> | Initializing objects for a class |
| <input type="radio"/> | Declaration, allocation, and manipulation of data |
| <input type="radio"/> | Deallocating memory cells for new data |
| <input type="radio"/> | Storing aggregate data |

346- Correct Answer is B: Declaration, allocation and manipulation of data

Solved BY TCS

The protocol that ensures older transactions are given priority when accessing locked items is called the _____

Select the correct option

- Priority inversion
- Deadlock avoidance
- Wound wait
- Young-Old transaction

347- Correct Answer is C: **Wound wait**

Audio Video Subtitle Tools View Help

Persistent objects in a database are distinct from transient objects because they are _____

Select the correct option

- saved after program termination
- created during program execution
- linked to other objects
- discarded after program termination

348- Correct Answer is A: **Saved after Program termination**

What is the primary focus of the implementation phase in software engineering?

Select the correct option

<input type="radio"/>	Requirements Analysis
<input checked="" type="radio"/>	Writing programs and creating data files
<input type="radio"/>	Testing
<input type="radio"/>	Design

349- Correct Answer is B: **Writing programs and creating data files**

Solved By Hamza

If information hiding is not properly implemented, what will be the main effect on software program:

Select the correct option

- It hides all data so important information cannot retrieve.
- Internal compositional structure of modules can damage
- Errors occur during module development
- It can compromise validity of program modules.

350- Correct Answer is C: **Errors occur during module development**

Why do many software engineers argue for the incorporation of testing into various developm

Select the correct option

- To eliminate the need for testing
- To make testing an optional phase
- To streamline the development process
- To isolate testing as a separate step

351- Correct Answer is A: **to Eliminate the need for testing**

During the implementation phase of software engineering, what task is typically performed?

Select the correct option

<input type="radio"/>	Requirements gathering
<input type="radio"/>	Creating modular design
<input checked="" type="radio"/>	Writing programs
<input type="radio"/>	System analysis

352- Correct Answer is C: **Writing Program**

Solved By Harry Amir

A Car making factory makes car for their client. In Factory design pattern, Factory is considered as:

Select the correct option

- Character
- Class
- Abstraction
- Instance

353-Correct Answer is B: **Class**

Solved By Harry Amazo

GOMS model is based on_____*

Select the correct option

<input type="radio"/>	machine behavior
<input type="radio"/>	software documentation
<input checked="" type="radio"/>	human behaviors
<input type="radio"/>	hardware architecture

354- Correct Answer is C: **Human Behaviors**

An array is a "-----" block of data whose entries are of the same type.

Select the correct option

<input type="radio"/>	triangle
<input checked="" type="radio"/>	rectangular
<input type="radio"/>	square
<input type="radio"/>	oval

355- Correct Answer is B: **Rectangular**

Solved BY X

ISO makes software _____ for software companies to guarantee quality control.

Select the correct option

<input checked="" type="radio"/>	Standards
<input type="radio"/>	Queries
<input type="radio"/>	Hardware
<input type="radio"/>	Software

356- Correct Answer is A: **Standards**

Solved By Harry Hill

To control access to information within a database, database systems often rely on _____ and _____.

Select the correct option

<input type="radio"/>	keys, indexes
<input checked="" type="radio"/>	schemas, subschemas
<input type="radio"/>	records, tables
<input type="radio"/>	queries, reports

357- Correct Answer is B: **Schemas, Subschemas**

Solved By Harry Amazon

What does the term 'waterfall' in the waterfall model analogy represent?

Select the correct option

- | | |
|----------------------------------|---|
| <input type="radio"/> | The flexibility in the development process |
| <input checked="" type="radio"/> | The strict, one-directional flow of the development process |
| <input type="radio"/> | The trial-and-error nature of software development |
| <input type="radio"/> | The iterative approach to software development |

358-Correct Answer is B: **The Strict one – directional flow of the development process**

Solved By Harry

How are fields in an aggregate type usually accessed?

Select the correct option

<input checked="" type="radio"/>	Field names
<input type="radio"/>	Numerical index numbers
<input type="radio"/>	Pairs of indices
<input type="radio"/>	Row and column numbers

359- Correct Answer is A: **Field Names**

What is another name for a program counter in the context of CPUs?

Select the correct option

- | | |
|----------------------------------|---------------------|
| <input type="radio"/> | Numeric register |
| <input type="radio"/> | Index counter |
| <input checked="" type="radio"/> | Instruction pointer |
| <input type="radio"/> | Code counter |

360-Correct Answer is C: **Instruction pointer**

Solved By Harry Ahmad

A _____ is a storage area that contains such an encoded address.

Select the correct option

<input checked="" type="radio"/>	pointer
<input type="radio"/>	graph
<input type="radio"/>	array
<input type="radio"/>	tree

361- Correct Answer is A: **Pointer**

Solved BY

What is correct benefit of decorator pattern during software development?

Select the correct option

- | | |
|-----------------------|---|
| <input type="radio"/> | It designs the hardware of the system |
| <input type="radio"/> | Work and combine the modules |
| <input type="radio"/> | Increase software complexity |
| <input type="radio"/> | It offers standardized way of implementation system |

362- Correct Answer is D: **It offers standardized way of implement system**

Open-source development of the Linux operating system is lead by -----?

Select the correct option

- | | |
|-----------------------|-----------------|
| <input type="radio"/> | Steve Jobs |
| <input type="radio"/> | Mark Zuckerberg |
| <input type="radio"/> | Bill Gates |
| <input type="radio"/> | Linus Torvalds |

363- Correct Answer is D: **Linus Torvalds**

What could best describe the application of a one-dimensional array with 26 elements?

Select the correct option

<input type="radio"/>	Storing student data
<input type="radio"/>	Representing monthly sales and profit
<input checked="" type="radio"/>	Tracking alphabet letter occurrences
<input type="radio"/>	Managing skill ratings and reviews of employee data

364- Correct Answer is C: **Tracking alphabet letters occurrences**

Solved By Harry Amal

What does SDLC stand for in the development environment?

Select the correct option

- | | |
|----------------------------------|---------------------------------|
| <input type="radio"/> | System Design Life cycle |
| <input type="radio"/> | Software Design Life Cycle |
| <input checked="" type="radio"/> | Software Development Life Cycle |
| <input type="radio"/> | System Development Life Cycle |

365- Correct Answer is C: **Software Development Life Cycle**

Solved BY /

A _____ is a collection whose entries have a hierarchical organization similar to that of an organization chart of a typical company.

Select the correct option

graph

queue

tree

stack

365- Correct Answer is C: **Tree**

A process which is used by the software industry to design, develop and test high quality software is known as:

Select the correct option

Development manual

Software

Software life cycle

Testing process

366- Correct Answer is C: **Software Life Cycle**

Database systems emerged as a means of _____ the information stored in organizations.

Select the correct option

- Separating
- Duplicating
- Restricting
- Integrating

367- Correct Answer is D: **Integrating**

Solved By Harry Amazon

Which of the following relates to Intellectual property laws?

Select the correct option

<input type="radio"/>	Islamic law
<input type="radio"/>	System law
<input type="radio"/>	Liability law
<input checked="" type="radio"/>	Patent law

368- Correct Answer is D: Patent Law

What is the main characteristic of a one-dimensional array?

Select the correct option

<input type="radio"/>	Different types of entries
<input checked="" type="radio"/>	Single row of elements
<input type="radio"/>	Varied sizes of entries
<input type="radio"/>	Multiple rows and columns

369- Correct Answer is B: **Single row of elements**

Solved By Hai

What is the primary focus of the design phase in software engineering?

Select the correct option

<input type="radio"/>	Creating a budgeting plan
<input checked="" type="radio"/>	Identifying problems
<input type="radio"/>	Constructing the software system
<input type="radio"/>	Establishing requirements

370- Correct Answer is C: **Constructing the Software system**

Solved By Harry

How do we refer to nodes that have the same parent in a tree?

Select the correct option

<input checked="" type="radio"/>	Siblings
<input type="radio"/>	Descendants
<input type="radio"/>	Ancestors
<input type="radio"/>	Children

371- Correct Answer is A: **Siblings**

Solved BY

In the traditional waterfall model, what is the task of the SQA group before the design stage begins?

Select the correct option

- Overseeing the implementation
- Approving the design
- Certifying the conceptual final product
- Approving software requirements specification

372- Correct Answer is D: **Approving software requirements Specification**

What can achieve through information hiding in software development.

Select the correct option

- Weakened encryption
- Increased vulnerability
- Open access to sensitive data
- Maintain validity and integrity of system

373- Correct Answer is D: **Maintain Validity and Integrity of System**

Which Template C++ Language offers to programmer so he/she can easily implement objects for performing actual

Select the correct option

- Standard Template Library
- NumPay
- Application Programming Interface
- .Net Framework Class Library

374- Correct Answer is A: **Standard Template Library**

The naming convention used in JOIN operations ensures _____ for attributes in the new relation.

Select the correct option

- Uniqueness
- Similarity
- Redundancy
- Irrelevance

Activate.W

375- Correct Answer is B: **Similarity**

A module should be designed so that other modules do not need access to its internal information, this is called:

Select the correct option

- | | |
|----------------------------------|--------------------|
| <input checked="" type="radio"/> | Information hiding |
| <input type="radio"/> | Cohesion |
| <input type="radio"/> | Information access |
| <input type="radio"/> | Coupling |

376- Correct Answer is A: **information hiding**

One of the advantages of separating application software from the DBMS is to achieve _____, allowing change application software.

Select the correct option

- | | |
|----------------------------------|---------------------|
| <input type="radio"/> | data security |
| <input type="radio"/> | networking |
| <input checked="" type="radio"/> | data independence |
| <input type="radio"/> | user access control |

377- Correct Answer is C: **Data independence**

Which of the following is not the reason due to which a Software is moved to maintenance stage.

► Select the correct option

- | | |
|----------------------------------|---|
| <input type="radio"/> | Errors are discovered. |
| <input type="radio"/> | Changes done in previous modification introduce the errors. |
| <input checked="" type="radio"/> | Repair process |
| <input type="radio"/> | Changes in software application occurs. |

378- Correct Answer is C: **Repair Process**

Solved By Harry

A Car making factory makes car for their client. In Factory design pattern, Car is referred as:

Select the correct option

<input checked="" type="radio"/>	Class
<input type="radio"/>	Instance ✓
<input type="radio"/>	Abstraction
<input type="radio"/>	Character

379- Correct Answer is B: Instance

Solved By Harry Amal

What is depicted in the following figure?

Select the correct option

<input type="radio"/>	Stages of debugging
<input type="radio"/>	Software development methodology
<input checked="" type="radio"/>	Software life cycle
<input type="radio"/>	Software design cycle

380- Correct Answer is C: **Software life Cycle**

What field of mathematics is used in basis path testing to identify sets of test data?

Select the correct option

- Probability theory
- Geometry
- Graph theory
- Number theory

381- Correct Answer is C: **Graph Theory**

Solved By Harry Arora

The term cohesion refers to this _____

Select the correct option

<input type="radio"/>	external binding
<input type="radio"/>	control coupling
<input type="radio"/>	data coupling
<input checked="" type="radio"/>	internal binding

382- Correct Answer is D: **Internal Binding**

The problem known as the _____ can arise if one transaction is in the middle of transferring funds from one account to another when bank.

Select the correct option

incorrect summary problem

lost update problem

potential problem

time sharing

383- Correct Answer is A: **Incorrect summary problem**

What is the purpose of prototyping in incremental and iterative models?

Select the correct option

To incorporate the Waterfall model in the software development

To build a complete (final) system

To evaluate the incomplete versions of the proposed system

Prototyping is not involved in the incremental and iterative models

384- Correct Answer is C: **to evaluate the incomplete version of the proposed system**

Which company created the Rational Unified Process (RUP)?

▶ Select the correct option

<input type="radio"/>	Microsoft
<input type="radio"/>	Google
<input type="radio"/>	IBM
<input type="radio"/>	Apple

385- Correct Answer is C: IBM

Solved By Harry!

What is a design pattern in the context of software engineering?

Select the correct option

- | | |
|----------------------------------|--|
| <input checked="" type="radio"/> | A pre-developed model for solving recurring software problem |
| <input type="radio"/> | A specific coding language syntax |
| <input type="radio"/> | A recurring problem in software development |
| <input type="radio"/> | An overview of the software problem |

386- Correct Answer is A: **A pre-developed model for solving recurring software problem**

Solved By Harsh

Retrieving a list of job titles in a specific department involves selecting tuples based on the _____ attribute.

▶ Select the correct option 

- | | |
|----------------------------------|--|
| <input type="radio"/> | Job title |
| <input type="radio"/> | Employee ID |
| <input checked="" type="radio"/> | Relation  |
| <input type="radio"/> | Department |

387- Correct Answer is C: **Relation**

What can happen if modifications are made to software without understanding the underlying program?

Select the correct option

- | | |
|----------------------------------|---|
| <input type="radio"/> | Reduced maintenance efforts |
| <input type="radio"/> | Improved system performance |
| <input type="radio"/> | Enhanced software security |
| <input checked="" type="radio"/> | Introduction of more problems  |

388- Correct Answer is D: **Introduction of more problem**

In Structure Chart functions are represented by_____.

Select the correct option

<input checked="" type="radio"/>	Rectangles
<input type="radio"/>	Arrows
<input type="radio"/>	Triangles
<input type="radio"/>	Circles

389- Correct Answer is A: Rectangles

Solved By Harry

What is the primary focus of the maintenance phase in software engineering?

Select the correct option

- | | |
|----------------------------------|--------------------------------------|
| <input type="radio"/> | Redesigning the entire system |
| <input checked="" type="radio"/> | Repairing software defects |
| <input type="radio"/> | Studying the program |
| <input type="radio"/> | Identifying the bugs in the software |

390- Correct Answer is B: **Repairing software defects**

Solved By Harry H

----- is exemplified by two transactions, each of which makes a deduction from the same account.

Select the correct option

<input checked="" type="radio"/>	Lost update problem
<input type="radio"/>	Incorrect summary problem
<input type="radio"/>	Potential problem
<input type="radio"/>	Time sharing

391- Correct Answer is B: **Lost update problem**

Solved By Harry A...

How is the depth of a tree defined?

Select the correct option

- | | |
|----------------------------------|---|
| <input type="radio"/> | The number of only first horizontal layer within the tree |
| <input type="radio"/> | The number of top nodes in the tree |
| <input checked="" type="radio"/> | The number of nodes from root to leaf in the tree |
| <input type="radio"/> | The number of only leaf nodes in the tree |

392- Correct Answer is C: **The number of nodes from root to leaf in tree**

Solved By Hackly

What is the layperson's perception of requirements analysis?

Select the correct option

<input type="radio"/>	Deciding how the software system will do it
<input type="radio"/>	Determining the software performance
<input checked="" type="radio"/>	Deciding what the software system is to do
<input type="radio"/>	Determining the software accuracy

393- Correct Answer is C: Deciding what the software system is to do

Solved BY

The format in which information is displayed by spreadsheet programs is similar to the format used in the

Select the correct option

- Relational model
- Network model
- Object-oriented model
- Hierarchical model

394- Correct Answer is A: **Relational Model**

One operation we might want to perform on a relation is to select possessing certain characteristics and to place these selected

Select the correct option

- tuple, attribute
- attribute, attribute
- tuple, tuple
- table, tuple

395- Correct Answer is C: **tuple, tuple**

What, according to most practitioners in the software engineering field, is the major cause of cost overruns and late p

Select the correct option

- Well-defined requirements
- Poor communication and changing requirements
- Limited stakeholder involvement
- Early completion of requirements

396- Correct Answer is B: **Poor communication and changing requirements**

A typical database application involves two major layers: the application layer and the _____ management la

Select the correct option

- schema
- database
- user
- data

397- Correct Answer is B: **database**

What is the purpose of ergonomics in human-machine interface design?

elect the correct option

- | | |
|----------------------------------|---|
| <input type="radio"/> | Designing systems that harmonize with the physical abilities of machines. |
| <input type="radio"/> | Designing systems that harmonize with the mental abilities of humans. |
| <input checked="" type="radio"/> | Designing systems that harmonize with the physical abilities of humans. |
| <input type="radio"/> | Designing systems that harmonize with the mental abilities of machines. |

398- Correct Answer is C: **Designing systems that harmonize with Physical abilities of human**

Solved By Harry

Stronger form of cohesion called _____?

Select the correct option

<input checked="" type="radio"/>	Functional cohesion
<input type="radio"/>	Intermodule coupling
<input type="radio"/>	Intramodule cohesion
<input type="radio"/>	Logical cohesion

399- Correct Answer is A: **Functional Cohesion**

Solved BY

The Manufactured Product moves into Maintenance phase for _____ .

Select the correct option

<input type="radio"/>	Error removal
<input type="radio"/>	Error detection
<input type="radio"/>	Repair process
<input checked="" type="radio"/>	Error correction

400- Correct Answer is D: **Error Correction**

Solved By Harry

What does the term "manageable pieces" refer to in software engineering?

Select the correct option

<input type="radio"/>	Code documentation
<input checked="" type="radio"/>	Breaking down a project into smaller components
<input type="radio"/>	Software Development Life Cycle phases
<input type="radio"/>	Debugging techniques

401- Correct Answer is B: **Breaking down a project into smaller components**

Solved By Hai

What is the colloquial term for the head of a stack?

Select the correct option

<input type="radio"/>	Base
<input type="radio"/>	End
<input type="radio"/>	Bottom
<input checked="" type="radio"/>	Top

402- Correct Answer is D: **Top**

Solved by

In the case of _____ that are subject to heavy transaction loads, it is highly likely that a random snapshot will find the database in the middle

Select the correct option

<input type="radio"/>	small database
<input type="radio"/>	web development
<input type="radio"/>	object oriented programming
<input checked="" type="radio"/>	large databases

403- Correct Answer is D: **Large database**

Solved By Harry Amazon

In an array, what does the first index in a pair identify?

Select the correct option

<input type="radio"/>	Field name
<input type="radio"/>	Column associated with the position
<input type="radio"/>	Numerical index number
<input checked="" type="radio"/>	Row associated with the position

404- Correct Answer is D: **Row associated with position**

Solved BY

For

Why do software engineers support the use of well-designed, high-level programming languages?

Select the correct option

- | | |
|----------------------------------|---|
| <input checked="" type="radio"/> | To simplify the software maintenance process. |
| <input type="radio"/> | To blur the distinction between technical and user documentation. |
| <input type="radio"/> | To increase software sales. |
| <input type="radio"/> | To make system documentation unreadable. |

405- Correct Answer is A: **To simplify the software maintenance process**

The links between _____ in an object-oriented database are normally maintained by the DBMS.

Select the correct option

- | | |
|----------------------------------|------------|
| <input checked="" type="radio"/> | objects |
| <input type="radio"/> | forms |
| <input type="radio"/> | local data |
| <input type="radio"/> | functions |

406- Correct Answer is A: **Objects**

..... Provides a means of refining prefabricated object definition in order to customize definitions to conform to

elect the correct option

- Parsing
- Cohesion
- Inheritance
- Coupling

407- Correct Answer is C: **Inheritance**

Why is it important for an interface to present all relevant information when a decision is required?

elect the correct option

- To facilitate the user.
- To confuse the user.
- To test the user's memory.
- To rely on the user's memory.

407- Correct Answer is A: **To facilitate user**

Why is a stack considered a LIFO structure?

Select the correct option

- | | |
|----------------------------------|---|
| <input type="radio"/> | Entries are removed from the middle |
| <input type="radio"/> | Entries are removed in the order they were stored |
| <input checked="" type="radio"/> | Entries are removed in the reverse order of storage |
| <input type="radio"/> | Entries are removed from the base |

408- Correct Answer is C: **Entries are removed in the reverse order of storage**

Solved By

How is a programmer's role distinct from that of a software analyst in the implementation stage?

Select the correct option

- Programmers focus on requirements analysis and design.
- Programmers only work on database development.
- Programmers are responsible for the entire development process.
- Programmers are primarily involved in the implementation step.

409- Correct Answer is D: **Programmers are primarily involved in the implementation step**

What is testing primarily associated with the traditional development phase?

Select the correct option

- Confirming software product with the software requirements specification.
- Requirements analysis
- System design
- Software implementation

410- Correct Answer is A: **Confirming Software product with the software requirements specification**

411-How to create an Unordered list in HTML?

Select the correct option

(A)

(B)

(C)<href>

(D)

412- in Dreamweaver, we need to go to the _____ to insert an image in HTML page, in Dreamweaver.

(A)Format Tab

(B)Insert tab

(C)Command tab

(D)Edit tab

413-What is the function of the HTML style attribute?

(A)It is used to uniquely identify some specific styles of some element.

(B)None of the above.

(C)It is used to add styles to an HTML element.

(D)Both 1 and 2.

414- What are the attributes used to change the size of an image?

(A)Top and bottom

(B)Width and height

(C)None of the above

(D)Big and Small

415-What tag is used to display an image on a webpage?

(A)None of the above

(B)<src>

(C)

(D)<image>

416-Use the Unordered List button in the Property Inspector to create _____

(A)Numbered List

(B)a bulleted list

(C)Sequential numbers List

(D)None of the above

416-What is the use of the tag?

- (A)It is used to change the font size.
- (B)None of the above.
- (C)It is used to write black-colored font.
- (D)It converts the text within it to bold font.**

417-How to create an ordered list in HTML?

- (A)**
- (B)
- (C)
- (D)<href>

418-To insert the table, we need to go to the

- (A)Modify tab
- (B)Insert tab**
- (C>Edit tab
- (D)Format tab

419-HTML tags can be written within?

- (A){ }
- (B)! !
- (C)< >**
- (D)None of the above

420-Which of the following tags don't require a closing tag?

- (A)

- (B)None of the above
- (C)<hr>
- (D)Both 1 and 2**

421- A web page can be written using the following editor

- (A)None of the above
- (B)Dreamweaver
- (C)Both 1 and 2**
- (D)Notepad

422-HTML editors can work with the following

- (A)XML
- (B)CSS
- (C)All of the Above
- (D)HTML**

423-The text between tags _____ is presented as a first heading.

- (A)<heading> and </heading>
- (B)<head> and </head>
- (C)<h> and </h>
- (D)<h1> and </h1>**

424-The text between tags _____ describes the start and end of the web page.

- (A)<title> and </title>
- (B)<html> and </html>**
- (C)<head> and </head>
- (D)<body> and </body>

425- WYSIWYG stands for _____

- (A)None of the Above
- (B)What You See Is What You Get**
- (C)When You Start Is When You Go
- (D)What You See Is What You Gain

426-Web page documents have the file extension

- (A).obj
- (B).html**
- (C).class
- (D).cpp

427- HTML stands for: _____

- (A)Hypertext Markup Language**
- (B)None of these
- (C)Hypertext Markup Links
- (D)High Text Machine Language

428-Elements such as tables, queries, forms and reports in a database are called _____

- (A)Objects**
- (B)Datashets
- (C>Data types
- (D)Records

429-How many basic types of queries are used to manipulate the databases _____

- (A)3
- (B)2
- (C)4**
- (D)None of the Above

430-An Access database object that is used to enter, view or edit records

- (A)Report
- (B)Form**
- (C)Table
- (D)Query

431-ool that allows users to manage, store, retrieve and analyze the information. _____

(A)Record

(B)Database management system (DBMS)

(C)Query

(D)Field

432-Which of the following Microsoft Office tool is used to create database_____

(A)Microsoft Access

(B)Microsoft Word

(C)Microsoft Excel

(D)Microsoft PowerPoint

433-Press _____ to quit MS Access.

(A)Esc+ W

(B)Ctrl +F4

(C)Tab +F4

(D)Alt+F4

435-Which of the following is not a type of Microsoft Access database object?

(A)Form

(B)Table

(C)Modules

(D)Worksheets

436-Each column in the table is referred to as a _____

(A)None of the above

(B)Tuple

(C)Field

(D)Record

437- _____ Tab helps you to provide a quick and easy way to create tables, forms, reports and queries.

(A)External Data

(B)Datasheet

(C)Database Tools

(D)Create

438-SQL is used for

(A)Creating Front End of websites

(B)Creating Web Pages

(C)Accessing databases

(D)None of these

439-In order to access and retrieve data from the database we use

- (A)CSS
- (B)SQL**
- (C)XML
- (D)HTML

440- _____ Tab is used to import, export, collect and share data between different databases.

- (A)Datasheet
- (B)External Data**
- (C)Create
- (D)Database Tools

441-What is the full form of SQL?

- (A)Simple Query Language
- (B)Structured Query Linear
- (C)Straight Query Language
- (D)Structured Query Language**

442-Organized collection of data or information that can be accessed, updated, and managed is called

- (A)None of the above
- (B)DBMS
- (C)File
- (D)Database**

443-How many types of sorting techniques are available in MS Excel?

- (A)One
- (B)Two**
- (C)Three

444- _____ allows you to manipulate data in a worksheet based on a given set of criteria.

- (A)Sorting and Filtering**
- (B)Formatting

445-You can sort the data in

- (A)Both C and D**
- (B)None of the above
- (C)Descending order
- (D)Ascending order

446-n Microsoft Excel, Sort & Filter button can be found in _____.

(A)Home tab

(B)Formula tab

(C)Insert tab

(D)Review tab

447-..... of data lets you hide unimportant data and show only that data you're interested in.

(A)Sorting

(B)Restricting

(C)Alignment

(D)Filtering

448-The process of arranging the data in ascending and descending order is known as

(A)Filtering

(B)Restricting

(C)Sorting

(D)Alignment

449_ In MS Excel two or more cells can be combined to create a new, single and larger cell by using option.

(A)Wrap

(B)Merge

(C)Filter

(D)Pivot

450-The _____ feature of MS Excel quickly completes a series of data

(A)Auto Complete

(B)Auto Fill

(C)Sorting

(D)Fill Handle

451- Which of the following identifies a cell in Excel?

(A)Formula

(B)Address

(C)Label

(D)Name

452-In MS Excel, charts can be inserted from tab

(A)Formula

(B)Insert

(C)Data

(D)Home

453-What is the formula to find Finds the minimum value within a range

(A)Minimum

(B)Lowest

(C)Min

(D)Low

454-353-What is the formula to find SUM in MS excel ?

(A)=Minimum

(B)=SUM

(C) +SUM

(D) /SUM

455-In MS Excel which function is used to count the number of cells in a specified range.

(A)Count

(B)Sum

(C)Average

(D)Max

456- _____ enable Graphical representation of the data in Excel

- (A)Equation
- (B)Smart Art
- (C)Charts**
- (D) Table

457-The area which falls at the intersection of a column and a row is known as:

- (A)Cell**
- (B)Formula Bar
- (C)Ribbon
- (D)Name Box

458- _____ is an electronic spreadsheet application that enables users to store, organize, calculate and manipulate the data.

- (A)Microsoft Excel**
- (B)Microsoft PowerPoint
- (C)Microsoft Access
- (D)Microsoft Word

459-Which of the following fill effects can be used to fill the background of the slide?

- (A)Gradient
- (B)Texture
- (C)Picture
- (C)All of the above**

460-In a presentation of PowerPoint, the special effects used to introduce slides are known as _____

- (A)Transitions**
- (B)None of the above
- (C)Custom Animation
- (D)Annotations

461-In PowerPoint, the objects on the slide used to hold the text are called as

-
- (A)Textbox
 - (B)Text holders
 - (C)None of the above
 - (D)Placeholders**

462-What happens if you select first and second slide and then click on New Slide button on toolbar?

- (A)A new slide is inserted as third slide in presentation**
- (B)None of above
- (C)A new slide is inserted as first slide in presentation
- (D)A new slide is inserted as second slide in presentation

463-What are the three options available in Insert >> Picture menu in Power Point?

- (A)Clipart, Pictures, Shapes
- (B)Clipart, Pictures, AutoShapes
- (C)Clipart, From Files, AutoShapes**
- (D)Clipart, From File, Shapes

464-Which of the following file format can be added to a PowerPoint show?

- (A).jpg
- (B).wav
- (C).gif
- (D)All of these**

465-In which bar we can see the current position of the slide?

- (A)Ribbon
- (B)Status bar**
- (C)Title bar
- (D)View option bar

466-The minimum zoom size in MS PowerPoint is _____

(A)100

(B)10

(C)30

(D)0

467- What's the best way to design the layout for your slides?

(A)Create layouts for slides, handouts and notes using the Master Layout dialog box in slide master view

(B)Apply templates from the Slide Design task pane

(C)None of above

(D)For each new slide, select a layout from the Slide Layout task pane

468- Which of the following is the default page set-up orientation for notes pages, outlines and handouts?

(A)Landscape

(B)All of these

(C)Portrait

(D)Vertical

469-In slide layout panel, how many layouts are available for text layout by default?

(A)7

(B)1

(C)4

(D)12

470-Which type of view is not present in MS PowerPoint?

(A)Slide sorter

(B)Slide show

(C)Extreme animation

(D)Normal

471-What is the default PowerPoint standard layout?

(A)Title slide

- (B) Title only
- (C) Comparison
- (D) Blank

472- Which command will you use in PowerPoint if you need to change the color of different objects without changing content?

(A) Color Scheme

- (B) Object Color
- (C) Design Template
- (D) Font Color

473- Which feature is not in MS PowerPoint?

- (A) Background color
- (B) Zoom
- (C) Slide show

(D) Scan a virus

474- Which PowerPoint view displays each slide of the presentation as a thumbnail and is useful for rearranging slides?

(A) Slide Sorter

- (B) Notes Page
- (C) Slide Master
- (D) Slide Show

475- Which is not the valid edition of MS PowerPoint?

- (A) MS PowerPoint 2010
- (B) MS PowerPoint 2003
- (C) MS PowerPoint 2007

(D) MS PowerPoint 1920

476- The PowerPoint view that displays only text (title and bullets) is

- (A) Slide show
- (B) Notes page view
- (C) Slide sorter
- (D) Outline view**

477- In PowerPoint, the header and footer button can be found on the insert tab in what group?

- (A) Object group
- (B) Text group**
- (C) Tables group
- (D) Illustrations group

478- In MS-Word ruler helps _____?

- (A) all of the above**
- (B) to set indents
- (C) to change page margins
- (D) to set tabs

479- Which of the following provides a list of synonyms?

- (A) Replace Command
- (B) Thesaurus**
- (C) Find Command
- (D) Spelling and Grammar

480- Suppose you are asked to review the corrections made using the Track Change function by your supervisor, however, the changes are not visible. How can you view the changes he made?

- (A) You can view the changes by changing the Display for Review value to All Markup.**
- (B) There are no track changes made to this document.
- (C) You can view the changes by selecting Show Markup in the Tracking group.
- (D) You can view the changes by switching on track changes by clicking on the Track Changes button in the Tracking group.

481- The ribbon in Word 2007 consists of a series of?

- (A) Gates
- (B) Icons
- (C) Tabs**
- (D) Smaller ribbons

482- What action do you need to take to switch off track changes?

(A) Under the Review tab on the Ribbon, in the Changes group, click on the Accept button to switch track changes off.

(B) None of the options listed above are correct.

(C) Under the Review tab on the Ribbon, in the Tracking group, click on the Track Changes button to switch track changes off.

(D) Under the Review tab on the Ribbon, in the Tracking group, click on the Show Markup button to switch track changes off.

483- How can you easily and consistently navigate between track changes in a document?

- (A) Use the scrolling wheel on your mouse and look out for changes made in red in a document.
- (B) Click on the Show Markup button in the Tracking group to navigate between track changes in a document.
- (C) All of the options listed above are correct.

(D) In the Changes group, use the Previous and Next buttons to navigate between track changes in a document.

484- To block another user from switching off track changes in a document, what function should you enable?

- (A) All of the options listed above are correct.
- (B) No function is necessary, once Track Changes is switched on, they cannot be stopped unless all changes are accepted.

(C) The Lock Tracking option, which is located under the Track Changes button, will discourage users from switching off track changes.

(D) Activate the Reviewing Pane in the Tracking group. This will prevent other users from switching off the track changes function.

485- How can you easily and consistently navigate between track changes in a document?

(A) In the Changes group, use the Previous and Next buttons to navigate between track changes in a document.

(B) Click on the Show Markup button in the Tracking group to navigate between track changes in a document.

(C) Use the scrolling wheel on your mouse and look out for changes made in red in a document.

(D) All of the options listed above are correct.

486- How do you permanently apply all the edits that were made in track changes, to a document?

(A) Right-click the document and select Apply Track Changes and Stop Tracking from the list to accept all the changes in a document.

(B) Click on the dropdown arrow below the Accept button in the Changes group and select Accept All Changes.

(C) Click on the Track Changes button in the Tracking group to accept all changes in a document and to stop tracking changes.

(D) In the Display for Review box in the Tracking group, select No Markup to accept all the changes in a document.

487- What action do you need to take to switch off track changes?

(A) Under the Review tab on the Ribbon, in the Tracking group, click on the Track Changes button to switch track changes off.

(B) None of the options listed above are correct.

(C) Under the Review tab on the Ribbon, in the Tracking group, click on the Show Markup button to switch track changes off.

(D) Under the Review tab on the Ribbon, in the Changes group, click on the Accept button to switch track changes off.

488- To block another user from switching off track changes in a document, what function should you enable?

(A) Activate the Reviewing Pane in the Tracking group. This will prevent other users from switching off the track changes function.

(B) No function is necessary, once Track Changes is switched on, they cannot be stopped unless all changes are accepted.

(C) All of the options listed above are correct.

(D) The Lock Tracking option, which is located under the Track Changes button, will discourage users from switching off track changes.

489- Which Command Inserts a comment at the active cell?

(A) (Shift + F3)

(B) (Shift + F2)

(C) (Shift + F4)

(D) (Ctrl + F2)

490- You realized you made an error while creating your document. You used the word "maroon" instead of "burgundy" in several places. What is the quickest way for you to correct your mistake?

(A)Click Ignore in the Spell Check and retype them manually.

(B)Use the Cut and Paste feature.

(C)Use the Find and Replace feature.

(D)Use the Copy and Paste feature.

491- _____ are advanced features that can speed up editing or formatting you may perform often in a word document.

(A)Macros

(B)Comment

(C)Ribbon

(D)Track changes

492- You have just completed your first novel. It's perfect but the publisher still wants their editor to check it over and make any necessary corrections. You reluctantly agree but you want final say over any changes. "Grammar is more of an art than a science", you argue. But how can you review the editor's changes in a 1500-page novel without missing any of those changes?

(A)Word count

(B)Find and replace

(C)Quick parts

(D)Track changes

493- How can you quickly delete ALL the comments made within a document at once?

(A)Right-click on each comment within the document and select Delete Comment from the list.

(B)Under the Review tab on the Ribbon, in the Comments group, select Delete and then Delete All Comments in Document.

(C)Click on Select All Comments under the Review tab on the ribbon and press the Delete button on your keyboard.

(D)All of the options listed above are correct.

494- You realized you made an error while creating your document. You used the word “maroon” instead of “burgundy” in several places. What is the quickest way for you to correct your mistake?

(A)Use the Find and Replace feature.

(B)Click Ignore in the Spell Check and retype them manually.

(C)Use the Copy and Paste feature.

(D)Use the Cut and Paste feature.

495- Which would you choose to list Synonyms & Antonyms of a selected word?

(A) Insert, Cross-reference

(B)Tools, Options

(C)Tools, Spelling & Grammar

(D)Tools, Language

496- Which of the following drop down contains the commands: Set Proofing Language and Language Preferences.

(A)Word Count

(B)Translate

(C)Language

(D)Thesaurus

497- Which of the following does not belong to Translate command in MS Word?

(A)Mini Translator

(B)Spell Check

(C)Translate Selected Text

(D)Translate Document

498-Which of the following commands is present in the Review tab?

(A)Tracking

(B)All of the above

(C)Proofing

(D)Comments

499- What is the name of the feature that allows us to take a step backward if we've made a mistake?

(A)Redo

(B)Cancel

(C)Undo

(D)Backspace

500- the _____ feature in Word automatically corrects certain spelling, typing, and capitalization or grammar errors.

(A)AutoCorrect

(B)Auto Fix

(C)AutoMark

(D)Auto Spell

501- How many margins are surrounded around the document page?

(A)Four (center, top, left and bottom)

(B)Two (landscape and portrait)

(C)Four (top, bottom, right and left)

(D)Two (header and footer)

502-Why are headers and footers used in documents?

- (A)To mark large document more readable
- (B)To mark the starting and ending of a page
- (C)To allow page headers and footers to appear on a document when it is printed.**
- (D)To enhance the overall appearance of the document

503-Which item is printed at the bottom of each page

- (A)Footer**
- (B)Footnote
- (C)Title

504-What item contains detailed information about something in the text?

- (A)Header
- (B)Head Note
- (C)Footer
- (D)Footnote**

505-Where does Word insert a table of contents?

- (A)After the cover page
- (B)At the insertion point
- (C)On the first page of the report
- (D)Before the document title**

506- Where footnotes appear in a document?

- (A)None
- (B)End of document
- (C)End of Heading
- (D)Bottom of a Page**

506- A bookmark is an item or location in a document that you identify a name for future Reference. Which of the following tasks is accomplished by using bookmarks?

- (A) To add hyperlinks in a web page
- (B) To mark the ending of a page of document
- (C) None of These
- (D) To quickly jump to a specific location in the document**
